The duration of the license starts with the day the license key is delivered to Licensor. This license may be terminated by Licensor at any time upon notice to Licensee and will automatically terminate, without notice, upon the first to occur of the following: (a) the completion of Licensee's evaluation of the Software or (b) the expiration of the Trial Period.

II. SOFTWARE LICENSE

1. Scope of License:

- (1) Licensor grants Licensee access to the Software.
- (2) For Service Provider, the terms of Chapter IV shall apply in addition. Licenses not identified as service provider licenses in the offer or the order may not be used in accordance with the conditions in Chapter IV.
- (3) The general terms and conditions of Raynet apply. If provisions of the general terms and conditions are against one of the following provisions, the provisions of this EULA shall prevail. The precedence of individual written agreements between Licensor and Licensee remains unaffected.

2. Grant of License:

- (2) Device License: A Device License entitles Licensee to install and use the Software on one specific Licensed Device. The individual purchased number of licenses is specified in the offer or the order.
- (3) Concurrent User License: A Concurrent User License entitles Licensee to install and use the Software on any number of Licensed Devices, but the Software may not be used simultaneously by several users, users may only access the Software one after the other. The Concurrent User License is only available in conjunction with a Floating License Server License. By granting a Concurrent User License Licensor automatically grants Licensee a limited, personal, non-exclusive, non-transferable license for internal purposes only, to install and use the Floating License Server Software. The individual purchased number of Concurrent User and Floating License Server Licenses is specified in the offer or the order.
- (4) The FTE license authorizes the Licensee to use the Software for any number of devices, calculated based on its number of employees.
- (5) Licensee may install the Software on Licensee's or Affiliates' machines only. Subject to the terms and conditions of this agreement, Licensee's Affiliates may use the licenses granted to Licensee, provided that (a) such use is only for Licensee's or such Affiliate's benefit, and (b) Licensee agrees to remain responsible for each such Affiliate's compliance with the terms and conditions of this agreement and (c) upon request Licensee will identify each such Affiliate to Licensor.
- (6) Licensee may transfer the license from one device to another only upon retirement of the first device. Licensee may transfer the license within the affiliated companies from one company to another only upon written consent of Licensor.
- (7) The offer or the order will identify whether Licensee has purchased a subscription (time-limited) or perpetual license. In the case of a time-limited license, the duration of the right of use is specified in the offer or order. The subscription is automatically renewed for a further 12 months after the end of the contract unless the subscription is terminated in writing to the Licensor with

a notice period of three (3) months to the end of the respective contract. Project licenses with a term of less than 12 months are excluded from this regulation.

3. Restrictions on Use of Software/Ownership:

- (1) Licensee may not (a) make the Software available for use by others in any service bureau or similar arrangement; (b) distribute, sublicense, transfer, or lend the Software to any third party (except otherwise agreed in this agreement); or (c) disassemble or reverse engineer the Software to the extent allowed by law. 4. Third-Party Software, Open Source, and Freeware:

- (1) Licensee is responsible for the correct licensing of third-party software.

The ordered level of support and Maintenance Services is defined in the offer or the order. Subscription license fees include support and maintenance for the duration of the subscription Period. Maintenance Services will not include any releases of the Software which Licensor determines to be a separate product or for which Licensor charges its customers extra or separately. The Maintenance Services shall be automatically extended after the end of the Maintenance agreement for another 12 months, provided that the Maintenance is not terminated in written form to the Licensor with a notice period of three (3) months to the respective end of the Maintenance.

permitted use of the Software is more than five (5) percent in excess of that licensed, Licensee shall be liable to pay the inspection costs in addition to the costs of sublicensing and interest on the overdue amount at a rate of eight (8) percent above the prevailing German base lending rate.

7. Duration/Termination:

The duration of the license starts with the day the license key is delivered to Licensor. The license contract may be terminated by Licensor if (a) Licensee fails to make payment and/or (b) Licensee fails to comply with the terms of this agreement within ten (10) days after receipt of written notice of such failure. In the event of a valid termination of the subscription license, Licensee must cease using the Software, destroy all copies of the Software (including copies in storage media) and certify such destruction to Licensor. This requirement applies to all copies in any form, partial or complete. Upon the effective date of any termination, Licensee waives all rights granted under this agreement.

No warranty is further given for any technical details, operability in the customer environment, or regarding the suitability of the contracted Software for any specific purpose, unless otherwise provided in the specification of Software. Specifications made in the software specification or other documents shall not constitute a guarantee, unless they have been expressly designated as such.
- (5) If the contractual partner may claim any compensation for damages or claim for vainly expenditure due to warranty, this is subject to the following limitation of liability.

9. Limitation of Liability:

- (1) Raynet is liable without any limitation pursuant to the statutory provisions for damages arising from any violation of life, limb or health, to the extent that it fraudulently concealed a defect, it has assumed a warranty for the condition of the purchased item, in all cases of intentional acts or gross negligence, upon damages under the German Product Liability Law or to the extent otherwise legally mandated.
- (2) The liability of Raynet for data loss shall be limited to the typical data recovery cost which would have been incurred if regular backups were carried out.
- (3) The above liability shall not apply if a defect has been fraudulently concealed or a quality guarantee has been assumed. Liability under the German Product Liability Law remains unaffected.
